EXPERIENCE

6 MONTH

Cling infotech Internship | October 2024 - Working | Wave City, Gaziabad

- Joined Cling Infotech as a Full Stack Web Intern.
- After 2 months, transitioned to both Frontend & Backend Developer as per company requirements.
- Focused on building user-friendly and responsive web interfaces.
- Developed and optimized UI/UX using React.js, Next.js, Tailwind CSS.
- Built and optimized backend APIs using Node.js and Express.js.

Worked on both ongoing and new projects, enhancing features, fixing issues, and optimizing performance. Designed and developed complete UIs for new projects, ensuring a smooth user experience.

Running Projects

- Nesco - A corporate website for a leading organization.
- Dayanand Sagar University - A university website for academic needs.
- Anand Rathi - A stock advisory platform guiding investors.
- Airway Farmer - A farming app for advice and bookings.

New Projects

- Cargo Trip - A web app for easy cargo booking and transportation.
- Viaggin India - A travel site for Italian tourists to explore and book trips in India.
- Nishkarsh - An Astrologer Website for managing astrologer-user interactions via chat, voice, and video calls.
- Ambit Finserv - A website For giving Micro Loans.

PROJECTS

Self Projects

• E-commerce Platform (MERN)

- Admin-controlled product management with wishlist, cart & checkout.
- Dummy Stripe integration for secure transactions.
- Admin panel for revenue tracking & order status updates.

• Parallax Website (React, GSAP, Framer Motion)

- Smooth parallax scrolling for enhanced user experience.
- Interactive animations using GSAP & Framer Motion.
- Fully responsive and optimized UI.

• Advanced Portfolio (MERN)

- Dynamic portfolio with an admin panel for updates.
- Responsive UI with Tailwind CSS & smooth animations.
- MongoDB backend for structured data storage.

• Auth Web Application

- Secure authentication using JWT & Google OAuth.
- Personalized dashboards with unique access tokens.
- Firebase storage for seamless image management.

These projects highlight my expertise in authentication, role-based access control, full-stack development, and API design
